SUMMARY

Geodetic Engineering graduate from Institut Teknologi Nasional Malang with cross-functional experience combining technical geospatial expertise and data analysis precision. Began my career as an Assistant Surveyor Intern at PT Virama Karya, conducting topographic surveys, staking out, and cut-and-fill volume calculations to support toll road construction projects. This experience was further strengthened through my role as a Warehouse Data Analyst at PT. Thousand Island Services, where I managed inventory analysis, stock opname, and systematic operational reporting, as well as my experience as a Content Moderator at TELUS Digital, which sharpened my discipline in working within strict standards and procedures. Proficient in GIS (ArcGIS, QGIS), remote sensing (Google Earth Engine, ENVI), and Python programming for spatial analysis, orthophoto processing, WebGIS development, and the application of AI/ML in geospatial analysis. The combination of field survey experience, data analysis, and geospatial technology proficiency makes me ready to contribute to projects requiring both technical precision and analytical capability.

CORE SKILLS

- GIS Software — ArcGIS, QGIS
- Remote Sensing — Google Earth Engine, ENVI
- CAD & Photogrammetry — AutoCAD Civil 3D, Agisoft Metashape
- Geospatial Web & Databases— WebGIS, GeoServer, PostgreSQL/PostGIS
- Programming — Python, JavaScript, MATLAB
- Survey Equipment— GNSS, Total Station, Waterpass (Level), Theodolite
- Productivity Tools — Microsoft Excel, Microsoft Word, Microsoft Power point

PROFESSIONAL EXPERIENCE

Content Moderator *Jun 2025 – Sep 2026*
TELUS International

- Moderated user-generated content in accordance with platform guidelines
- Managed and organized content for review and reporting purposes

Ensured compliance with platform terms and conditions

Warehouse Admin and Data Analyst *Des 2025 – Mei 2026*
Realme Indonesia (PT. Thousand Island Services)

- Conducted inventory analysis and stock control
- Performed stock opname (physical inventory counts) and managed spare parts distribution
- Prepared warehouse reports and analyzed operational data

Assistant Surveyor Intern *Jul 2024 – Sep 2024*
PT. Virama Karya

- Conducted topographic surveys and staking out
- Performed cut-and-fill (excavation and embankment) volume calculations
- Supported toll road construction survey activities

EDUCATION

B.Eng., Geodetic Engineering *2021 – 2025*
National Institute of Technology Malang

CERTIFICATE
